

ALOKA CIPTA MANDIRI

COMPANY PROFILE

WHO WE ARE ?

Aloka Cipta Mandiri is an agricultural and trading company based in Tegal, Indonesia, specializing exclusively in sourcing and exporting premium-quality Indian Almond Leaves (*Terminalia catappa*) to the global market.

Established with a passion for sharing Indonesia's rich tropical bounty, we operate through direct partnerships with carefully selected local farmers and collectors. We understand that in the aquatic industry particularly for Betta fish breeders, shrimp keepers, and aquascaping enthusiasts cleanliness, quality, and consistent tannin content are paramount. Therefore, we implement strict, multi-stage quality control, from natural collection to final packaging.

Vision

To become the leading and most trusted exporter of premium Indian Almond Leaves from Indonesia, recognized globally for superior quality standards and sustainable business practices

Mission

1. Quality First: To consistently supply clean, mold-free leaves that are rich in natural tannins and humic acids.
2. Community Empowerment: To support and empower local farming communities through fair trade practices and competitive purchasing prices.
3. Global Service: To provide responsive, flexible, and professional export services to international buyers across all continents.

OUR PRODUCT

NANO

SMALL

MEDIUM

LARGE

We are a dedicated specialist focusing solely on supplying Dried Indian Almond Leaves (*Terminalia catappa*). Our focused expertise allows us to maintain the highest quality control and supply consistency for every leaf we export. Our product is naturally sourced from naturally fallen leaves, processed using natural sun-dried methods without chemical treatments, making them 100% organic and safe for aquatic ecosystems.

WHY CHOOSE US ?

PURELY ORGANIC

We guarantee our leaves are free from chemical pesticides, dyes, or treatments.

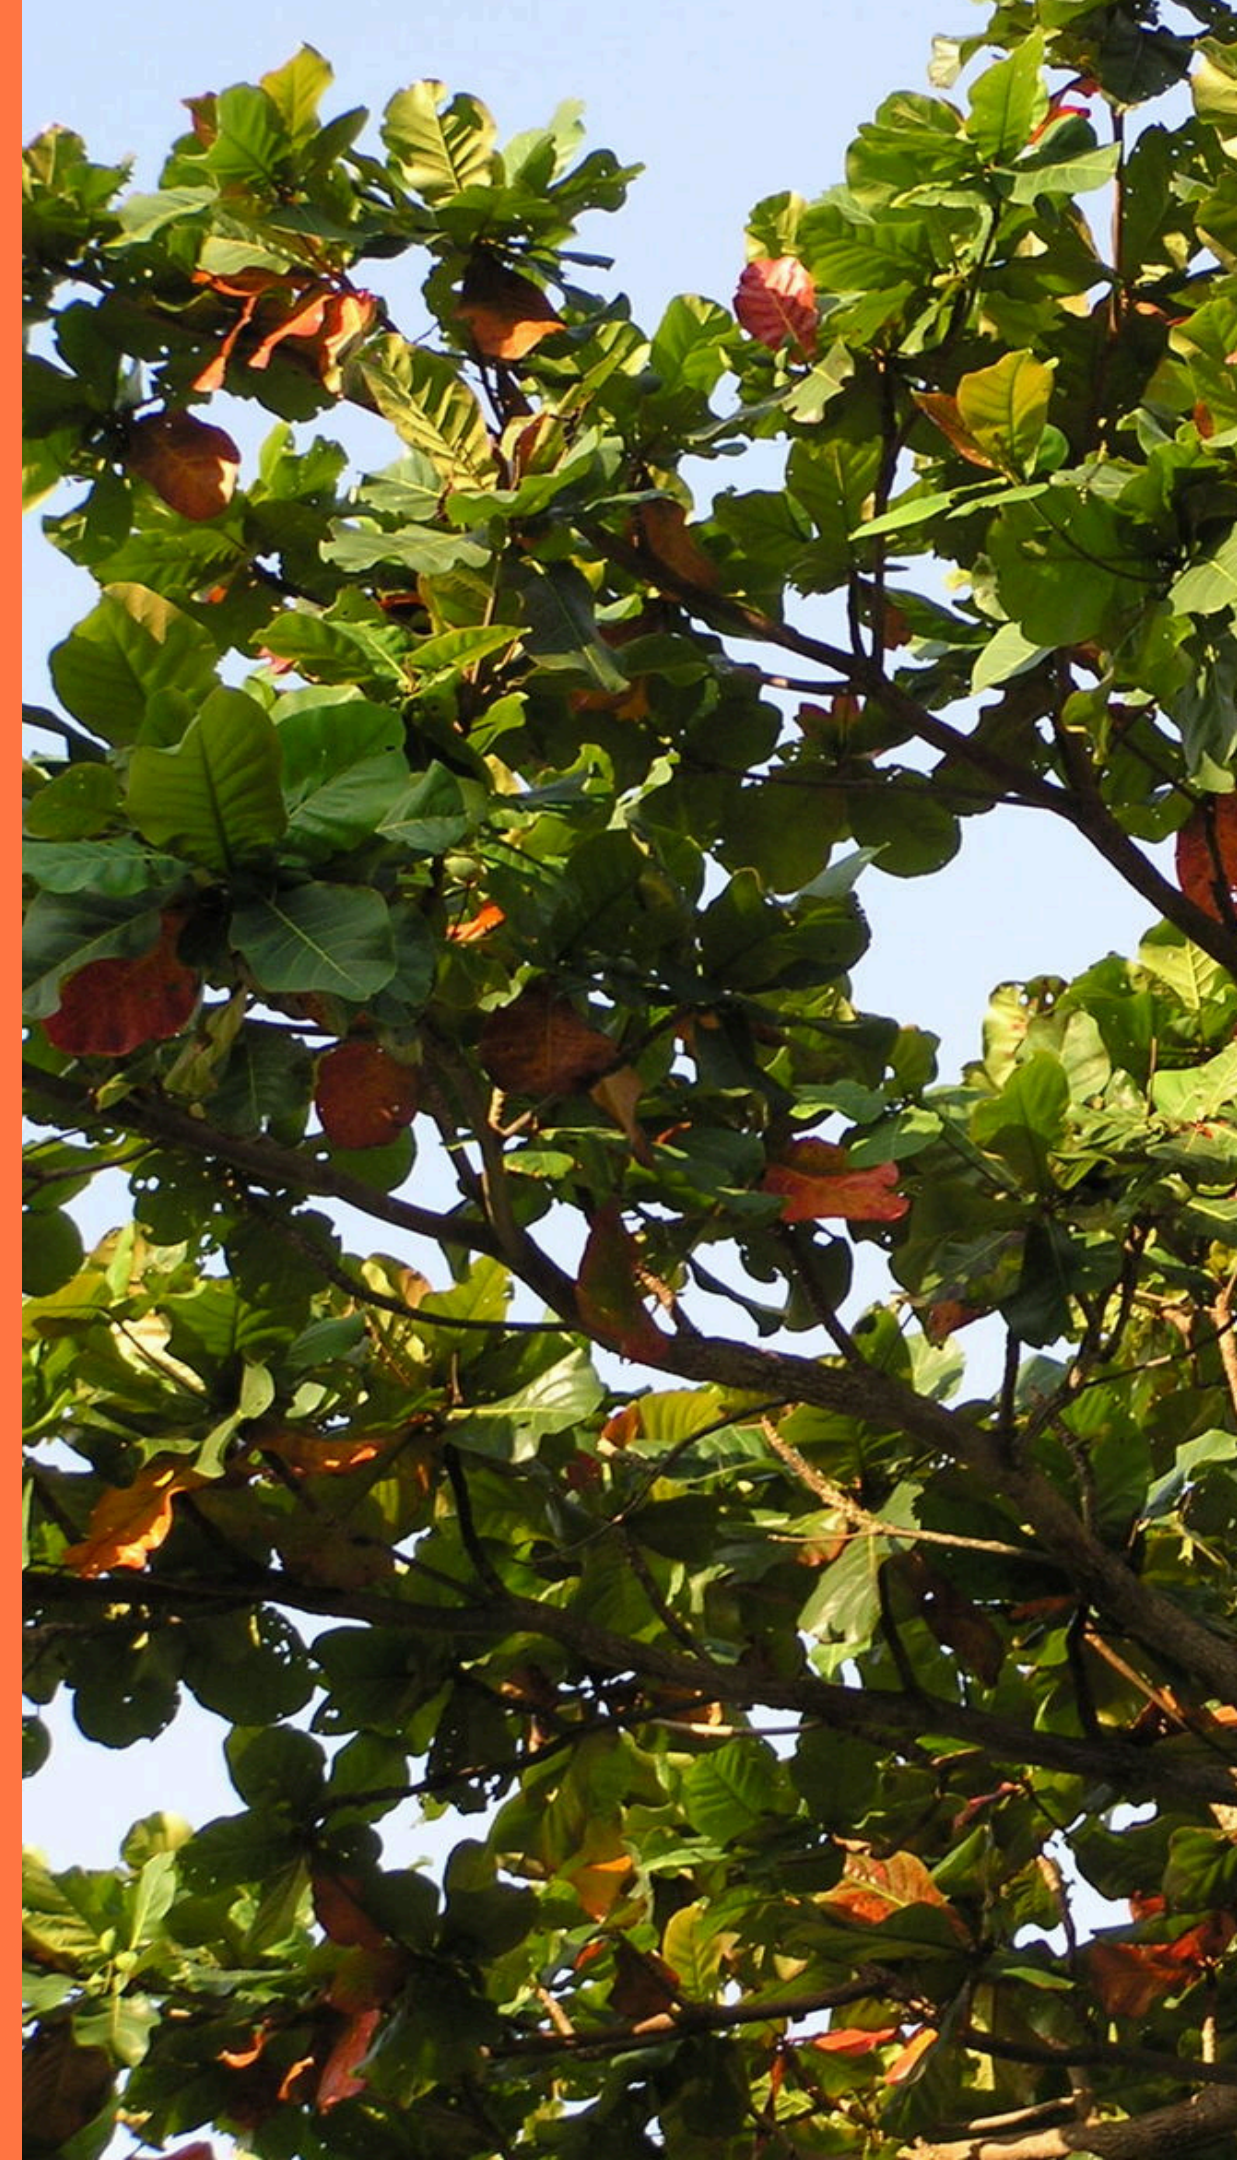

B2B PARTNERSHIP

Partnership over Transactions. Reliability for the Long Term

Sustainable Sourcing

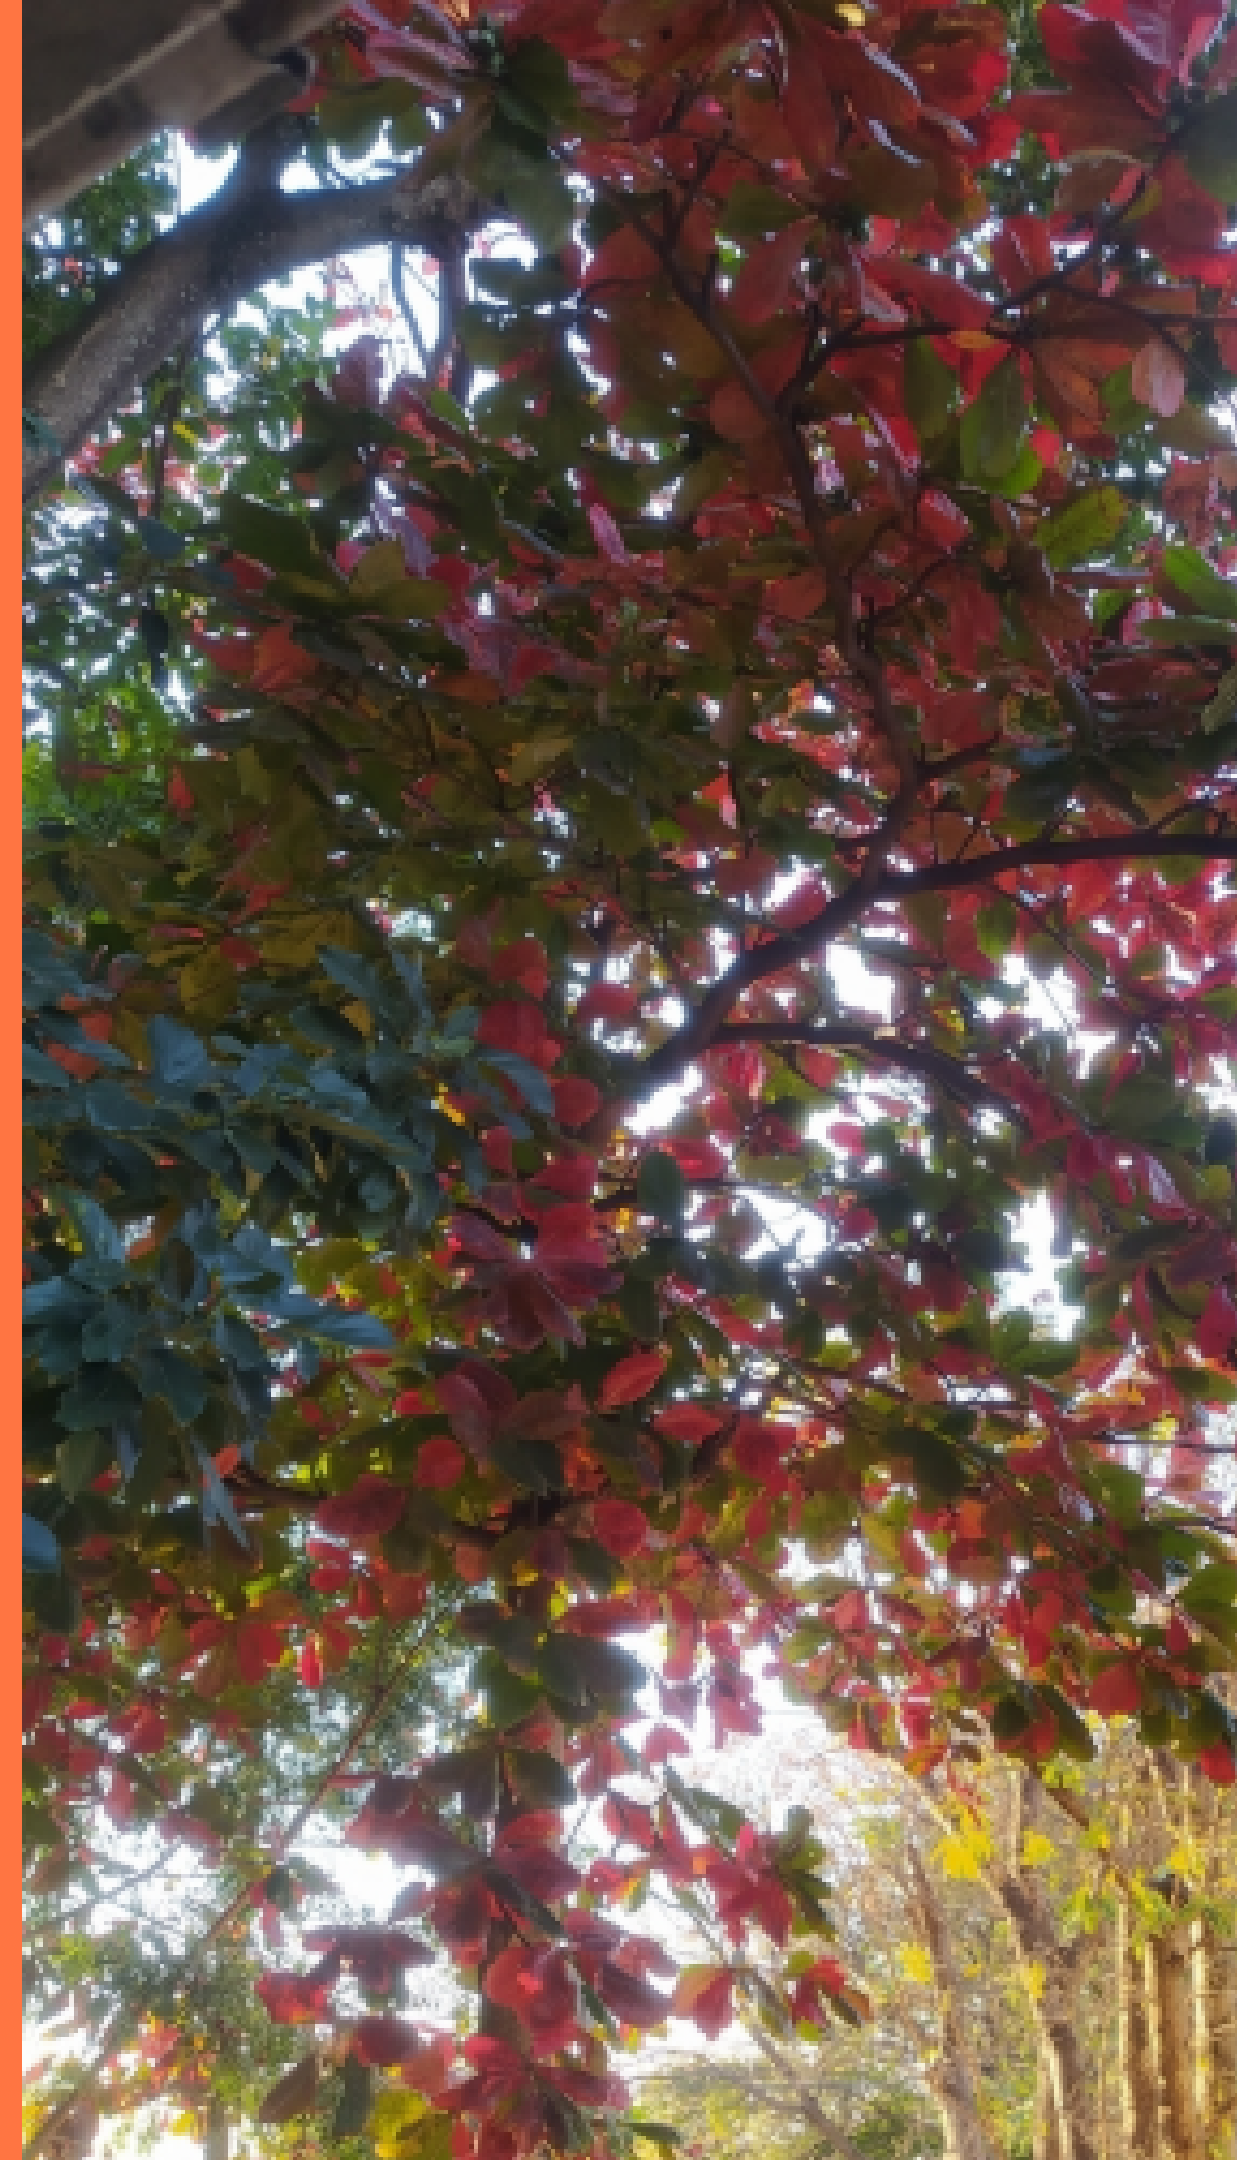

We only collect naturally fallen leaves, ensuring zero environmental impact and promoting the health of the trees

OUR PROCCCESS

To guarantee export-level quality, we adhere to the following strict procedure:

1. **Collection:** Partner farmers collect naturally fallen leaves.
2. **Washing & Rinsing:** Leaves are thoroughly cleaned to remove dust and residue.
3. **Drying:** Sun-dried until moisture content is safely below the standard export level.
4. **Sorting & Pressing:** Manual quality grading and flattening/pressing for optimal packaging.
5. **Fumigation (Optional):** Available upon request to meet specific import regulations of the destination country.
6. **Packaging & Shipping:** Ready for shipment via air freight, sea freight or Express Courier Service.
